

General information about AJ Energy & Bedding

The rape straw bedding comes in different variations. The products are Danish processed, heat treated, with minimal dust, bacteria-free and can be used in many ways. Rape bedding is a natural product. The bedding is extremely absorbent, which means that the surface is always dry, and this results in a better environment in the stable. The bedding may be used for pigs, cows, chickens/hens, mink, sheep, horses and pets. It can be used almost anywhere and often with great results in terms of **time/quantity/economy** – compared to shavings or regular straw.

AJ-Kross Mink uses in the puppy time. When you are preparing the cage, you can pour around 1 litre of the product down in the cage. It gives a dry and soft cage for the mink. At the same time, the cracks will be filled up. It means that you will get a compact nest case. After the AJ-Kross Mink it is a good idea to add some coarse straw in the cage, afterwards the cage is ready for use. The product gives you an extreme high suction capacity. If the animal has some diarrhoea, you can add a bit of the product in the cage, to keep the cage nice and dry.

AJ-Kross Mink is an extremely nice to use on the puppy net. When the net gets a bit slippery, you can add the product through the top of the cage. And then it will lay on the puppy net. It works super effective. It is always easy to bring around on the farm. The product secure that the animals have clean paws and that you uphold a nice and clean environment around the puppies. If you start a bit earlier with the product, you might secure that the cage and net is easier to clean up afterwards. A huge number of farms have over the last years used this product from AJ Energy & Bedding.

Consumption of AJ-Kross Mink

- 1 kg = 3 litre AJ-Kross Mink.
- 1 Big Bag / 800 kilos = 2.400 litre.

By use of **1L** per nest cage, would 1 Big Bag of 800 kilos be enough for 2.400 nest cages.
 By use of **1,5L** per nest cage, would 1 Big Bag of 800 kilos be enough for 1.600 nest cages.
 By use of **2L** per nest cage, would 1 Big Bag of 800 kilos be enough for 1.200 nest cages.
